

RUBIG PVD Coatings FOR DÉCOR

Decorative PVD coatings lead to increased scratch resistance in contrast to electroplating or lacquering. Thus, even with constant use, the service life can be drastically increased. PVD coatings can be used as an alternative to chrome coatings thanks to their metallic appearance.

SURFACE TREATMENTS USING PVD COATINGS HELP IMPROVE YOUR QUALITY, PRODUCTIVITY AND PROFITABILITY.

INDOOR AND OUTDOOR APPLICATIONS

- ▲ Door fittings
- ▲ Bath taps
- ▲ Vehicle interiors

SPORTS & LEISURE EQUIPMENT APPLICATIONS

- ▲ Golf clubs
